

July 29,2018

The senior pastor search committee met again on July 19. Most of the agenda was devoted to communication opportunities with the congregation. These will include written updates in the bulletin, newsletter and website, and periodic updates during Sunday services. Planning is also underway for forum-style congregational meetings where the committee can get input directly from church members. The committee also roughed out a timeline for the search and selection processes, about which you will hear more in the coming weeks. As always, please continue your prayers for this time of transition in our church, and feel free to reach out to committee members with your thoughts and concerns.
